

Zoom Rooms Appliances

Purpose-built hardware solutions that make it easier than ever to scale, deploy, and manage meeting rooms.

zoomrooms

Enterprise-grade video conferencing without enterprise-sized complications

These appliances purpose-built for Zoom Rooms provide immediate enhancements for simplified installation and management of large scale room deployments, while setting the stage for a new wave of room intelligence, analytics, and manageability.

Imagine all the rooms you can video enable

Everything IT teams love

- ✓ Easy to procure
- ✓ Easy to set-up
- ✓ Easy to manage

Everything your employees love

- ✓ Easy to meet
- ✓ Easy to share content
- ✓ Easy to use

Ultra simple set-up

These Zoom Room systems leverage custom-cabling solutions versus universal cabling standards that result in less cables and a simpler out-of-the-box experience - crucial when you're deploying hundreds of your huddle rooms.

Purpose built for the huddle spaces and conference rooms

Start meetings with a tap
Integrate your calendar to start and join meetings with one touch.

Meet with anyone
Include remote participants on desktop, mobile, or other conference room systems.

Share multiple desktops wirelessly
Push one button to share content into the meeting

HD audio and video
Bring high quality audio, video and web conferencing to your existing rooms.

End-to-end remote room management

Manageability

Update firmware and software for all your Zoom Room appliance hardware from your admin portal. Manage scheduling displays and calendar integration in the same portal.

Scalability

Standardize and deploy consistent Zoom Room setups across all your offices. Speed up setup with device auto-pairing and auto-provisioning.

Security

Prevent IT threats with devices that have built-in hardened security. Role-based administration allows users to manage rooms with safeguards.

Neat Bar by Neat

Neat Zoom Video Systems - designed for Zoom,
engineered for Zoom customers

Purpose-built, compact and highly capable

A native meeting room system that is perfect for bringing superior-quality audio and video to your huddle, focus and small meeting space.

It just works

The device awakens when you enter the room, without the need to check in. Meet with anyone local or remote. It automatically frames you perfectly and auto releases the room when you leave.

Buy Direct

Both small and large deployments are simple. You can buy direct at neat.no. Neat products ship globally to any location, offering a fast, secure service.
